PROFESSIONAL SUMMARY

Dedicated Front-End Developer with 1 year of professional remote engineering experience at an IT consulting firm. Specializing in building scalable, responsive, and high-performance web applications using React, Next.js, and modern JavaScript (ES6+). Proven track record in state management (Redux Toolkit), component architecture, API integration, and document/web management applications.

WORK & EXPERIENCE

Front-End Developer (Remote)

Kodera IT Consulting, Inc. (Washington, DC) — 1 Year

- Engineered and maintained user-facing features for enterprise web applications using React.js, Next.js, and TypeScript.
- Collaborated remotely with cross-functional teams to build document management interfaces and custom client web solutions.
- Implemented state management architectures using Redux Toolkit and REST API integrations for real-time data handling.
- Optimized application performance, web vitals, and responsiveness across mobile and desktop environments.

Freelance Front-End Developer

Self-Employed — Islamabad, Pakistan

- Built custom React and Next.js applications for individual clients with end-to-end responsive design.
- Integrated authentication and real-time backend databases (Firebase) for interactive web solutions.

TECHNICAL SKILLS

- Frontend Core:** React.js, Next.js (App & Pages Router), JavaScript (ES6+), HTML5, CSS3, TypeScript
- State Management & Async Data:** Redux Toolkit, Context API, TanStack Query (React Query)
- UI & Styling:** Tailwind CSS, CSS Modules, Responsive Web Design
- Routing & Forms:** React Router, Formik / Custom Form Actions
- Tools & Deployment:** Git, GitHub, REST APIs, Vercel, Firebase, npm/yarn

KEY PROJECTS

React Authentication & State Management Application | [Live Demo](#) | [GitHub Code](#)

- Built a secure single-page React application using Redux Toolkit for centralized state management.
- Implemented user authentication workflows (login, signup, session persistence) and token handling.

Next.js Dynamic Web Application | [Live Demo](#) | [GitHub Code](#)

- Developed a high-performance web app utilizing Next.js for server-side rendering and static site generation.
- Integrated RESTful API endpoints for dynamic data fetching, loading states, and error handling.

EDUCATION

Bachelor of Science in Software Engineering (BSSE)

International Islamic University, Islamabad

Relevant Coursework: Web Engineering, Software Construction & Development, Data Structures & Algorithms, Database Systems

CERTIFICATIONS & TRAINING

React - The Complete Guide (Udemy / Maximilian Schwarzmüller)

- Completed comprehensive training covering React Hooks, Redux Toolkit, React Router, Next.js, and REST APIs.
